

Insurance Recovery

SECURING YOUR CLAIMS

Ball Janik LLP's Insurance Recovery practice is widely considered an industry leader among Pacific Northwest law firms. Our attorneys have successfully resolved claims and lawsuits in a wide range of insurance areas, recovering substantial proceeds from hundreds of domestic and foreign insurers. To secure the most cost-effective outcome for clients, we pursue negotiation opportunities when prudent, consider alternative dispute resolution techniques when they hold promise, and go to court when necessary.

Our practice ranges from large-scale litigation on behalf of corporate policyholders under complex occurrence-based and claims-made coverages, to individual claims under property, disability, health, and other personal policies. We are regularly retained by national, and international, brokers and agents and reinsurance intermediaries when they become enmeshed in coverage disputes or litigation. We also provide proactive strategic coverage advice to clients and represent them throughout the process of resolving claims.
